Without their star players, the Boston Celtics defeated the New York Knicks 108-95 on Wednesday night, extending their winning streak to 12 games.

The Celtics, led by coach Doc Rivers, won the game without their two leading scorers, Paul Pierce and Ray Allen, who were both out with injuries. Pierce is recovering from a knee injury, and Allen is recovering from a shoulder injury.

The Celtics' victory was a significant one, as it marked their 12th straight win, a franchise record. The team's defense was solid, holding the Knicks to just 45 points in the second half.

The Celtics' next game will be against the Miami Heat on Friday night.

## Gaisano expands to Southern Leyte

**By Jose Antonio**

MANILA, Philippines — The Gaisano Group of Companies, a leading retail chain in the Philippines, has announced its expansion to Southern Leyte. The group, which operates under the Gaisano name, has secured a 10-year lease for a new retail complex in the city of Tacloban. The complex, which is expected to be completed by the end of the year, will include a large department store, a supermarket, and a variety of other retail outlets. The expansion is part of the group's strategy to increase its market share in the Philippines and to provide its customers with a wider range of products and services.

A photograph of an open book, likely a sketchbook or a collection of small illustrations. The pages are filled with a dense grid of small, colorful icons or illustrations. The icons are arranged in rows and columns, with some larger icons interspersed. The book is bound in the center, and the pages are slightly aged. The icons appear to be small, stylized drawings of various objects, possibly representing a collection of items or a decorative pattern. The colors are vibrant, and the overall layout is organized and systematic.

The diagram illustrates the experimental setup. A participant is seated at a table, looking at a screen. On the screen, there is a visual representation of a starting point (a large circle) and a target (a small circle). The participant's hand is positioned at the starting point. The diagram shows the spatial relationship between the hand, the target, and the visual feedback provided on the screen. Labels include 'Hand', 'Target', 'Visual feedback', and 'Starting point'.

# Who cares?

It doesn't matter if you care  
for others.

Perhaps you're the type in care essentially for others. Or maybe you care only a bit, and never think of anyone but yourself.

Figure 1 is a line graph showing the effect of the concentration of the inhibitor on the rate of polymerization. The y-axis is labeled 'P' and ranges from 0 to 1.0. The x-axis is labeled 'C' and ranges from 0 to 1.0. A curve starts at (0, 1.0) and decreases as C increases, approaching 0 as C approaches 1.0. The curve is labeled 'P = 1 - C'.

John Anson-Roa: 11 Years of Service from the U.S. to the Philippines

# SATURDAY

Philippine Daily Inquirer • Saturday, December 9, 2006 • P1

**Boots Anson-Roa savors the best that Eastern Europe has to offer**

John Anson-Roa, 11 years of service from the U.S. to the Philippines, is seen at a reception in Manila.

By Phyllis U. Tiron

**F**or John Anson-Roa, the Philippines is a place of many firsts. It was here that he first met his wife, a Filipina, and it was here that he first experienced the warmth and hospitality of the Filipino people.

After 11 years of service from the U.S. to the Philippines, Anson-Roa is now returning home to the United States.

During his time in the Philippines, Anson-Roa has been involved in many projects and has met many people who have made a difference in his life.

He has seen the country grow and change, and he has seen the people who have made it what it is today. He is proud to have been a part of it.

John Anson-Roa and his wife are seen at a reception in Manila.
